Math

Changing lives through literacy.

Start your journey today.

# About Adult Literacy Fredericton

Our vision is that all adults have the opportunity to develop their literacy skills. Volunteer tutors are matched to adults who want to improve their reading, writing and math skills.

“You are not alone. Many adults in New Brunswick don't have the literacy skills needed to cope with the demands of everyday life. All it takes to start is a phone call.”

Using the proven Laubach “each one teach one” method gives learners the basic tools and confidence they need to seek better job and educational opportunities, to take control of their finances and health, and to participate in the literacy development of their children.

Taking the first step to change your life can be difficult, but starting your learning journey can be easier than you think.

Contact us today if you or someone you know is ready to change their life.
